

About Us

Since 1981, Lawn Authority has been proudly serving home and business owners in our community. Our number one goal, other than your complete satisfaction, is to help you achieve a spectacular emerald green turf that welcomes family, friends and neighbors when they visit your home. First impressions are lasting, and your lawn speaks volumes about who you are. Relax and leave your lawn in the hands of the experts at Lawn Authority!

Services

Fertilization and Weed Control: Lawn Authority will treat your lawn with high quality fertilizers custom blended specifically for Lawn Authority by a local company right here in St. Charles County! Weed control, grub control and free service calls are all part of the Fertilizer Program that Lawn Authority offers.

Irrigation Maintenance: Starting up the system in the spring, checking all the heads to make sure they are spraying correctly, set up the controller for correct watering and doing the state required backflow certification. Then in the fall we winterize the system to protect it from freeze damage. We also offer Irrigation Repair and we can custom design and install a New Irrigation Systems for Residential and Commercial properties.

Lawn Mowing & Trimming to give your lawn a clean professional look.

Aeration & Seeding helps make the lawn look nice and green and make it thick to help keep out weeds and crabgrass.

Perimeter Pest Control: An exterior spray barrier is applied to help keep those unwanted bugs outside rather than inside your home.

Tree & Shrub Care: To help protect your landscaping from insects & diseases as well as fertilizing your landscape.

Irrigation • Mowing • Fertilization • Weed Control • Aeration • Leaf Removal • Shrub Trimming
Dethatching • Lawn Restoration & Seeding • Landscape Mulch • Spring/Fall Clean ups • Lime
